GREETINGS FOR 1953

To All Our Gardening Friends -

The beauty of a garden depends on a proper arrangement to produce attractive color all through the season, and we are attempting to furnish you with the materials for easily achieving that garden of your dreams.

As we have many things which we do not list here, you are invited to come in and browse around at any time. May the year bring you much pleasure from growing things and from sharing and enjoying them with your friends.

The Englerths

POSTAGE: All orders for \$2.50 or over will be sent postpaid. With orders for less than that amount, please include 25¢ for packing and mailing. Michigan customers please include 3% sales tax.

BEGINNERS' ALL-SEASON DAYLILY COLLECTION

Early	Intermediate	Midseason	Late
Sovereign	Serenade	Hyperion	August Pioneer
Minor	Waubun	Marcus	Anna Betscher
Tangerine	Dover	Linda	Gold Imperial
Apricot	Soudan	Theron	Highboy
Estmere	Glorianna	Patricia	Boutonniere
Brunette	Mikado	J. A. Crawford	Sunny West

To make up a collection of your own choice that will bloom for you all through the season, select two from each of the above four lists, 8 daylilies in all, which will be sent labeled for \$3.00.

Four from each classification, 16 daylilies in all, for \$5.50.

UNLABELED DAYLILY COLLECTION

If you are not interested in names, but do want daylily color allthrough the summer, we will make you up a collection of 10 fine lilies, our selection and unlabeled, and send postpaid for \$2.00.

Daylilies

(HEMEROCALLIS)

So easy to grow and so lovely to look at describes the day lily - but not adequately. Use drifts of them in cream and gold to carry the sunshine colors through your perennial borders; and plant groups of the strong-colored ones against evergreens or shrubs for striking garden pictures. They require time to become established and should be left undisturbed for some time as they do not start to give their best performance until their second or third year.

Prices are for strong single divisions, and we ship either in early spring or in late summer and fall.

Abbreviations used are as follows:

- E - Early; Late May and early June in this locality
- I - Intermediate; from early to mid-June into July
- M - Midseason or July bloomers
- ML - Late midseason, July into August
- L - Late; August and September
- RE - Has repeat bloom
- EV - Evergreen foliage tendencies
- OE - Remains open into the evening

AFTERGLOW (Stout) 40"-M-OE. Unusual pastel buff with raised midrib, best in partial shade	\$ 2.00
ALADDIN (Stout) 40"-I. Clusters of orange-yellow blooms - deep brown eye-zone	.50

Use the gay cushion mums with your evergreen foundation planting.

Glad Bulbs

The glad is one of our most beautiful flowers and one of the easiest to grow. Why not plan to have a few this year?

Please order early as possible because stocks of some varieties are not large. We cannot accept orders for bulbs after April 15. When glad bulbs are ordered with other plants they will be shipped separately, if necessary, to arrive in time for early planting.

For those not interested in names, but who only wish to grow a nice variety of glads, we offer these collections:

Cut Flower Collection

100 large bulbs in a wide variety of colors for a long season of bloom -	\$ 4.50
50 large bulbs of the above -	2.50
100 medium size bulbs -	3.00
50 medium size bulbs -	1.75

DeLuxe Collection

A hand-selected collection of better varieties (at least 25 or more). A wide selection of colors sure to please you:

100 large bulbs -	\$ 6.00
50 large bulbs -	3.50
100 medium size bulbs -	4.50
50 medium size bulbs -	2.50

 L 1-35¢; 10-\$2.80 M 1-25¢; 10-\$2.00

Cultural Directions

Glad can be planted anytime from early spring until about 90 days before the first frost. By planting your bulbs over a longer period of time, you can enjoy a longer glad season. The large bulbs come into bloom sooner than the smaller sizes.

Plant the large bulbs 4 to 6" deep, according to whether your soil is heavy or sandy (shallower for the small sizes). They should be planted from 2 to 6 inches apart in the row and the rows 24 to 30 inches apart. For the best bloom, they should have plenty of water and frequent shallow cultivation. They do not require much fertilizer and if used should be applied as a side dressing.

Choice Perennials

To help carry the colors through the season

- ECHINOPS TAPLOW BLUE - This outstanding globe thistle makes wonderful specimen plants for the back of the summer perennial border. The globes are larger and of a blue much deeper in color than the ordinary echinops ritro, and are not only effective garden subjects, but make a long-lasting cut flower. Nice plants for this summer bloom 60¢ each, three for \$1.60.
- HEUCHERA BRIZOIDES - Has tall pink airy-fairy blooms to grace the garden from May nearly all through the summer. 50¢ each for nice plants.
- LIATRIS PYCNOSTACHYA - Heavy plants to give many spikes of lavender blooms. 50¢ each.
- PHLOX AMOENA - A low species about 6 inches tall, covered in spring with bright pink flowers. Nice plants 45¢ each.
- PHLOX SUBULATA ATROPURPUREA - Creeping plants for edgings or rock gardens, covered in spring with wine-red blooms. Nice plants 45¢
- POLYGONUM REYNOUTRIA (Dwarf Lace Plant) - Handsome ground cover for sunny spots. Height 4 to 6 inches and leaves turn brilliant red in autumn. Attractive pink and white blooms. Nice plants 50¢.
- SEDUM MAXIMUM ATROPURPUREA - Upright growing to about 18 inches; foliage rich mahogany brown, flowers in sprays of a lighter shade. Grand for foliage color effect. Nice plants 50¢.
- VERONICA INCANA - Silvery gray foliage and deep blue spikes of bloom about one foot tall, for rock gardens or edging. Large plants 50¢.

A Colorful Mum Garden at Low Cost

30 root divisions of tall-growing varieties, assorted colors for \$3.00.

30 root divisions of cushion type assorted colors for \$3.00.

30 root divisions of all types mixed for \$3.00

At these prices you can afford a whole garden of mums. You will be pleasantly surprised at the beautiful varieties.
